

Are you interested in volunteering? Are you an avid gardener?

**ARMY
FLYING
MUSEUM**

We are looking for a small team of volunteers to help maintain our garden and some new wooden troughs. The garden contains a mixture of wild plants and wildlife-friendly shrubs. It is home to butterflies, beetles, bees, and birds.

In order to keep our garden tidy, we need some help with weeding, pruning, and deadheading. We also need assistance with identifying and labelling the wild plants in the garden and producing factsheets about flowers and insects.

Volunteering at the Museum gives you a chance to meet new people and become part of a small, friendly, team. You will also receive a 20% discount in the Museum Shop and Apache Café.

Ideally we would like help for half a day per week in the Summer, to reduce to once every three weeks in the Winter.

If you are interested then please complete our application form:
